

THAT'S WHY YOU SHOULD CHOOSE TROX

We are the professionals for indoor air

□

GERMANY'S NO. 1 FOR VENTILATION AND AIR CONDITIONING

In 1951, the brothers Friedrich and Heinrich Trox founded a company for the production of air terminal devices, Gebrüder Trox GmbH. Today, TROX is the world leader in the development and production of components, units and systems for ventilation and air conditioning of rooms

- 4000 employees
- 18 production sites
- 12 research and development centres
- "Made in Germany" quality

OUR EXPERTISE DURING THE CORONAVIRUS PANDEMIC

As indoor air professionals, we have decades of experience in indoor air flow distribution and the use of HEPA filters.

We continually contribute our expertise to associations and scientific committees.

As drivers of innovation in the industry we are applying the latest findings from COVID-19 research. As a result, we know exactly how an indoor air purifier must be

designed to offer you maximum safety and efficiency.
